From 1953-1989 the SEC Champion was determined by the accumulation of points in an individual flighted tournament (there was not a separate team tournament champion). In 1990, a team dual match format was instituted for the conference tournament which provided a SEC Tournament Champion. From 1990-98, the SEC Champion was determined by a total aggregate points accumulated at the conclusion of the conference tournament: one full point is awarded for each regular-season conference win, one-half point for wins in the first two rounds of the conference tournament, one-half point for receiving a first-round bye in the conference tournament and one full point for a win in the conference tournament semifinals and finals. For the 1999 season, the same points system was in place with a couple of changes: one full point for first-round bye in the conference tournament and one full point for a win in any round of the conference tournament. In 2000, the SEC changed the determination of its tennis regular season champion to the team with the best winning percentage in conference regular-season dual matches (11 matches).
